- Our continually hopped super-fantastic IPA brewed with a slew of great Northwest hops for a powerful, but balanced citrusy hop character.
- Rather than a traditional early hop addition for flavor & late hop addition for aroma, 60 Minute is continually hopped throughout its entire boil.
- Sam first brewed 10-gallon batches of 60 Minute on a glorified homebrew rig and used a vibrating magnetic football game to add more than 60 doses of hops throughout the beer's 60-minute boil.
