## **FESTIVE SAISON**

Our holiday saison brewed with rose hips, chamomile, black currants, and dark Belgian candy syrup. Deep, complex and intriguing, this bone-dry Belgian-style ale is sure to seduce you, or the one you're with. Roses, chamomile, and currants have long been considered powerful aphrodisiacs, so we decided to combine them with mysterious and beguiling Belgian saison yeast. The result is something very special and sure to help spice up nights spent at home during the cold winter months. Have you been naughty or nice this year - or both?
