

# NEW T3 2020 IPA VARIETY PACK

ONLY AVAILABLE MID SEPTEMBER TO EARLY JANUARY

**Mosaic:** A golden hazy IPA with complex citrus, herbal and stone fruit notes derived from the Mosaic hop's feature role in the bittering, aroma, and double dry hop additions of this brew. This is only available in this IPA Variety Pack.

**IPA:** Our original India Pale Ale lays down hints of grapefruit and pine on the palate, with a clean and bright finish. A straight-up, always fresh, always heady OG IPA, this is the go-to brew you order without having to check the menu.

**Hop Hash Easy IPA:** We dosed this session ale with a boatload of Amarillo Hop Hash. Pungent with floral, tropical citrus fruit flavors, and the hop hash gives it that one of a kind chewy, gooey, resinous mouthfeel. As the chaser, we gave it a hefty dry hop to enhance the potent aromas.

**G13:** We took an already dank IPA and married its hops with strain specific terpenes and natural hemp-type flavor. The result is an aromatic super-hybrid sticky IPA that's ready to rip.

**Trainwreck:** The strain keeps rolling along with this hazy double IPA. Aromas of citrusy orange hit first with a caboose full of vanilla and pine notes following. Billowing dank aroma and strain-specific terpenes jump the whole thing off the rails.
