### DESCRIPTION

This season in New England is fickle... Snowy mornings are met by sunny afternoons... Weekday warm streaks lead into weekend blizzards... It can all be tough to manage. So instead of switching up our beer choices to match the weather, we brewed The Long Thaw, a delightfully Hazy IPA brewed with orange peel, coriander, and some classic American hops. Soft, crushable, and refreshingly citrusy but medium-bodied with a warming spice, it's as perfect in the sun as it is mid-blizzard. Hibernation be damned. Go enjoy The Long Thaw.

### PAIRING SUGGESTIONS

Crispy orange chicken over cilantro rice, dressing in layers, mojo pork and white bean salad, pond hockey, pound cake with orange vanilla glaze, the second round of mid-snowstorm shoveling
