On-The-Spot Recognition

Ian McCorristin, Drivers - We received word from Bob at Taproom Bar & Grill that Ian did such a great job rotating all cases and backed up kegs with fresh ones. Bob stated "Wouldn't mind if he came every week!"

NEW Company Wide Suggestion System

Introducing our NEW company digital suggestion platform, "Vetter." This innovative platform is designed to transform the way we collaborate, innovate, and drive our organization forward. You will be able to share ideas thru a QR code and view the status of your suggestion also thru a QR code. Your suggestions can be anonymous, or you may sign them with an email address. We also set up a Safety group where you can submit concerns you may have on facility, equipment, and other safety concerns. We look forward to your helpful suggestions! Instructional video - coming soon!

Marketing Department

Sales Department

Fishers Island Lemonade has been purchased by Spirit of Gallo. While this is a change, it is still business as usual for Kramer Beverage. We believe this partnership will pave the way for new opportunities and growth, while allowing us to continue delivering the same exceptional products and service that our customers are accustomed to. Please reach out to Pat Murray (pmurray@kramerbev.com) for any questions regarding this change.

Email Remains the Largest Threat to Computer Systems and Information

We recently have had scammers impersonating Brendan Dalton and contacting AR for an Open AR list.

- AR ignored the request because they paid attention to the system warnings.
- If the scam was successful our customers could have been defrauded thousands of dollars.
- If a manager or executive is making a strange request thru email, verbally confirm it

In the past 30 days we have blocked over sixty thousand emails. While we are working hard to keep bad emails out, we need you to be vigilant, because YOU are our last line of defense.

Remember: bad guys are attacking Kramer Beverage every day and attacking you personally. Use your Knowbe4 training not only for work, but with your personal accounts too.
